

DIE RAUMWUNDER FÜR FAHRZEUGEINRICHTUNGEN

ab CHF 2'500.–

Grosses Ladegut ist schnell gesichert, Kleinteile sind fachgerecht sortiert und sauber gelagert. Der Stauraum unter dem Laderaumboden entpuppt sich als wahres Raumwunder.

Unterflurmodule sind ideal für Kleinkastenwagen und für die optimale Nutzung des vorhandenen Laderaumes. Durch das grosszügige Platzangebot unter der Ladefläche garantieren die Module einen schnellen Zugriff auf ständig benötigte Werkzeuge und Utensilien. Darüber steht Ihnen die gesamte Ladefläche zur Verfügung oder ist frei für den weiteren Ausbau.

Die nützlichsten Vorteile sind:

- Schubladen und Einteilungen in unterschiedlichen Grössen zur individuellen Nutzraumgestaltung
- Sicht- und Diebstahlschutz, da das Ladegut von aussen nicht einsehbar ist
- Sicheres Fahrverhalten, da der Schwerpunkt des Ladeguts direkt über dem Fahrzeugboden liegt
- Komfortables Be- und Entladen durch Zugang zu Werkzeugen und Material vom Heck und von den Seitentüren
- Rückstandslose Demontage durch Befestigung des Moduls über die vom Fahrzeughersteller vorgesehenen Befestigungspunkte
- Sicherer Transport des Sperrguts auf der darüber liegenden Ladefläche mit Zurrösen
- Bauhöhe 200 oder 350 mm, Tiefe bis 1080 mm
